Jalandhar, Punjab, India

PROFESSIONAL SUMMARY

AI/ML-focused PhD researcher and academic professional with experience in academic administration, faculty coordination, Outcome-Based Planner (OBP) management, University Management System (UMS), academic reporting, and performance monitoring. Currently pursuing a PhD in Computer Applications with a specialization in Artificial Intelligence and Machine Learning. Skilled in Python, Machine Learning, Data Analysis, Angular, React.js, Node.js, and database technologies. Experienced in academic administration, web application development, business development, and cross-functional coordination. Seeking opportunities in AI/ML, Computer Science teaching, academic research, and Assistant Professor roles.

EDUCATION

- Lovely Professional University** Jalandhar, Punjab
PhD in Computer Applications – Artificial Intelligence and Machine Learning 2025 – Present
- Lovely Professional University** Jalandhar, Punjab
Master of Computer Applications (MCA) – Web Development; CGPA: 75.4 2022 – 2024
- Lovely Professional University** Jalandhar, Punjab
Bachelor of Computer Applications (BCA) – Cybersecurity; CGPA: 79 2019 – 2022

PROFESSIONAL EXPERIENCE

- Lovely Professional University** Jalandhar, Punjab
Senior Assistant Nov 2024 – Present
 - Academic Administration:** Manage Outcome-Based Planner (OBP) and University Management System (UMS) activities for the Coordinator of Faculty and Senior Dean.
 - OBP Management:** Assign OBP metrics to HOSs and monitor completion, verification, and approval of OBP activities for each academic term.
 - Faculty Coordination:** Coordinate with HODs, HOSs, faculty members, and academic departments for OBP implementation, monitoring, reporting, and follow-ups.
 - Academic Reporting:** Prepare reports, presentations, meeting documents, academic records, and administrative documentation for senior academic management.
 - Faculty Inspection:** Conduct and support faculty inspections and compliance monitoring through the University Management System (UMS).
 - Data Management:** Maintain and organize academic and administrative data for reporting, review, performance monitoring, and decision-making.
 - Academic Coordination:** Coordinate academic meetings, schedules, follow-ups, documentation, and administrative activities across academic departments.
 - Performance Monitoring:** Support academic planning, performance monitoring, documentation, and cross-functional coordination among academic stakeholders.
- Ediglobe** Bangalore, Karnataka
Business Development Trainee Dec 2024 – May 2025
 - Lead Generation:** Generated business leads through market research, cold calling, and email outreach.
 - Client Communication:** Contacted prospective clients to understand requirements and present relevant products and services.
 - CRM Management:** Maintained CRM records and tracked leads, client interactions, follow-ups, and sales activities.
 - Business Proposals:** Assisted in preparing business proposals, sales presentations, and client communication materials.
 - Client Support:** Supported senior team members during client meetings, negotiations, follow-ups, and relationship management activities.
 - Market Research:** Conducted market research to identify potential business opportunities and support business development strategies.
 - Cross-functional Coordination:** Coordinated with internal teams to understand client requirements and business objectives.

- **Infosys Springboard**
Web Developer Intern

Remote
Mar 2024 – Jun 2024

- **Seeker Application:** Developed a Seeker application for content search and enrollment.
- **Progressive Web Application:** Implemented Progressive Web App (PWA) features to improve accessibility, performance, and user engagement.
- **Frontend Development:** Developed and integrated responsive frontend components using Angular.
- **UI Development:** Used Tailwind CSS and Tailblock to develop responsive and user-friendly interfaces.
- **Multilingual Support:** Supported multilingual content to improve accessibility for a broader range of users.
- **Beckn Protocol:** Worked with the Beckn Protocol as part of application development and integration activities.
- **Application Development:** Contributed to application testing, development, debugging, and performance improvements.

PROJECTS

- **Loan Prediction using Machine Learning:** Developed a machine learning solution for loan risk prediction using financial data. Performed data cleaning and preprocessing, feature engineering, model training, and performance evaluation using Random Forest and Gradient Boosting algorithms. Evaluated models using accuracy, precision, recall, and F1-score. Technologies: Python, Machine Learning, Data Analysis, Data Visualization, Model Deployment.
- **Hospital Management System – MERN Stack:** Developed a full-stack hospital management application supporting patient and administrator roles. Implemented secure authentication and role-based access control (RBAC), appointment scheduling, doctor availability management, and patient history tracking. Technologies: React.js, Node.js, Express.js, MongoDB, JWT Authentication.

TECHNICAL & PROFESSIONAL SKILLS

- **Artificial Intelligence & Machine Learning:** Artificial Intelligence, Machine Learning, Python, Data Analysis, Machine Learning Model Development
- **Web Development:** Angular, React.js, JavaScript, Node.js, Progressive Web Applications (PWA), HTML5, CSS3, Tailwind CSS
- **Databases:** MySQL, MongoDB
- **Academic Administration:** Academic Administration, OBP Management, UMS, Faculty Coordination, Academic Reporting, Performance Monitoring, Data Management
- **Business Development:** Business Development, Lead Generation, CRM, Market Research, Client Relationship Management, Business Analysis

CERTIFICATIONS

- **Infosys Springboard:** HTML5, CSS3, JavaScript, AngularJS, ReactJS
- **Artificial Intelligence:** Introduction to Artificial Intelligence – Infosys Springboard
- **Data Science:** Introduction to Data Science – Infosys Springboard
